Please find below and/or attached an Office communication concerning this application or proceeding.

The proposed reply received on 4/14/2003 (how to respond letter), 4/22/2003 (amendment), and 5/16/2003 (confirmation fax) have not been entered because they are not signed by an
5 authorized person. An amendment must be signed by a person having authority to prosecute the application. An unsigned or improperly signed amendment will not be entered. See MPEP 714.01(a) and 714.01(d).

There is a duly appointed attorney in this application.
10 Applicants may consider withdraw of power of attorney and change of address if desired. The charge for the amendment as presented is \$110 for a one month extension of time. No attorney is required to obtain a US patent, applicants may obtain a patent on their own, called Pro se. The US Patent Office will correspond
15 at a single address with a single applicant whose single signature would appear on all required documents. Any applicant you select can be an authorized person.

Since the above mentioned reply appears to be *bona fide*,
20 applicant is given a TIME PERIOD of **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME LIMIT MAY BE GRANTED UNDER 37 CFR 1.136(a).

Should applicants desire, this examiner is available by appointment to assist applicants on the phone, please call during business hours at (703) 308-0732 to schedule an appointment if desired.

Regarding the intended amendment, the claims have been renumbered according to Rule 1.126, claims 1-11, 14-16 appear to be pending. Please confirm claims 12, 13, 17-20 are intended to be canceled. Please note that ~~use~~ claims, such as present
10 claims 15 and 16, are not patentable in the US. There is patentable material presented, however, the language and format of the claims presented is non-standard and not in condition for allowance. The claims must be carefully rewritten in accordance with standard US patent practice. More extensive amendments are
15 required of the claims than the examiner can readily provide because the amendments will change the scope of the claims.

The Abstract of the Disclosure is objected to because of legal phraseology. Correction is required. See M.P.E.P.
20 § 608.01(b).

The disclosure is objected to because of the following informalities: The specification lacks standard headings and format. Please update the specification regarding the related
25 priority applications. Appropriate correction is required.
